Agenda

- Hej ☺
- UX…?
- Praktiske ting
- En kort historietime
- (øvelse)
- UX research
- Case

Hvad er en god brugeroplevelse?

INTERFACE DESIGN

UX på Webudvikling

Værktøj

- Papir og blyant
- Figma
- Nysgerrighed ☺

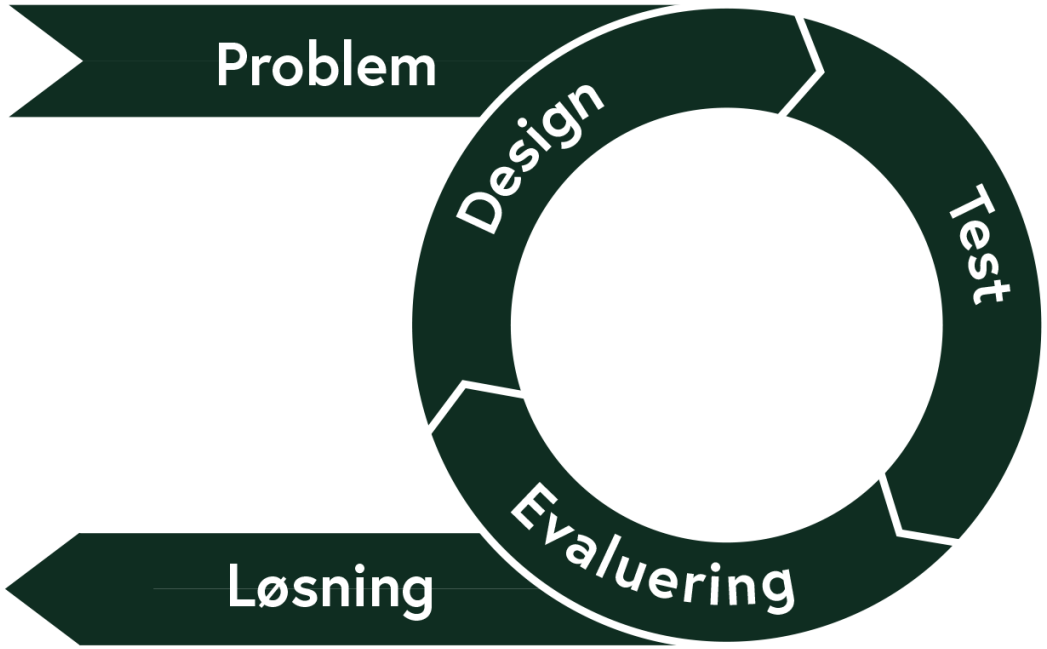

Opgaver undervejs

- Gruppearbejde
- Flere delopgaver, der afleveres og præsenteres til sidst
- 3 ud 4 delopgave skal godkendes før man indstilles til eksamen

Eksamen

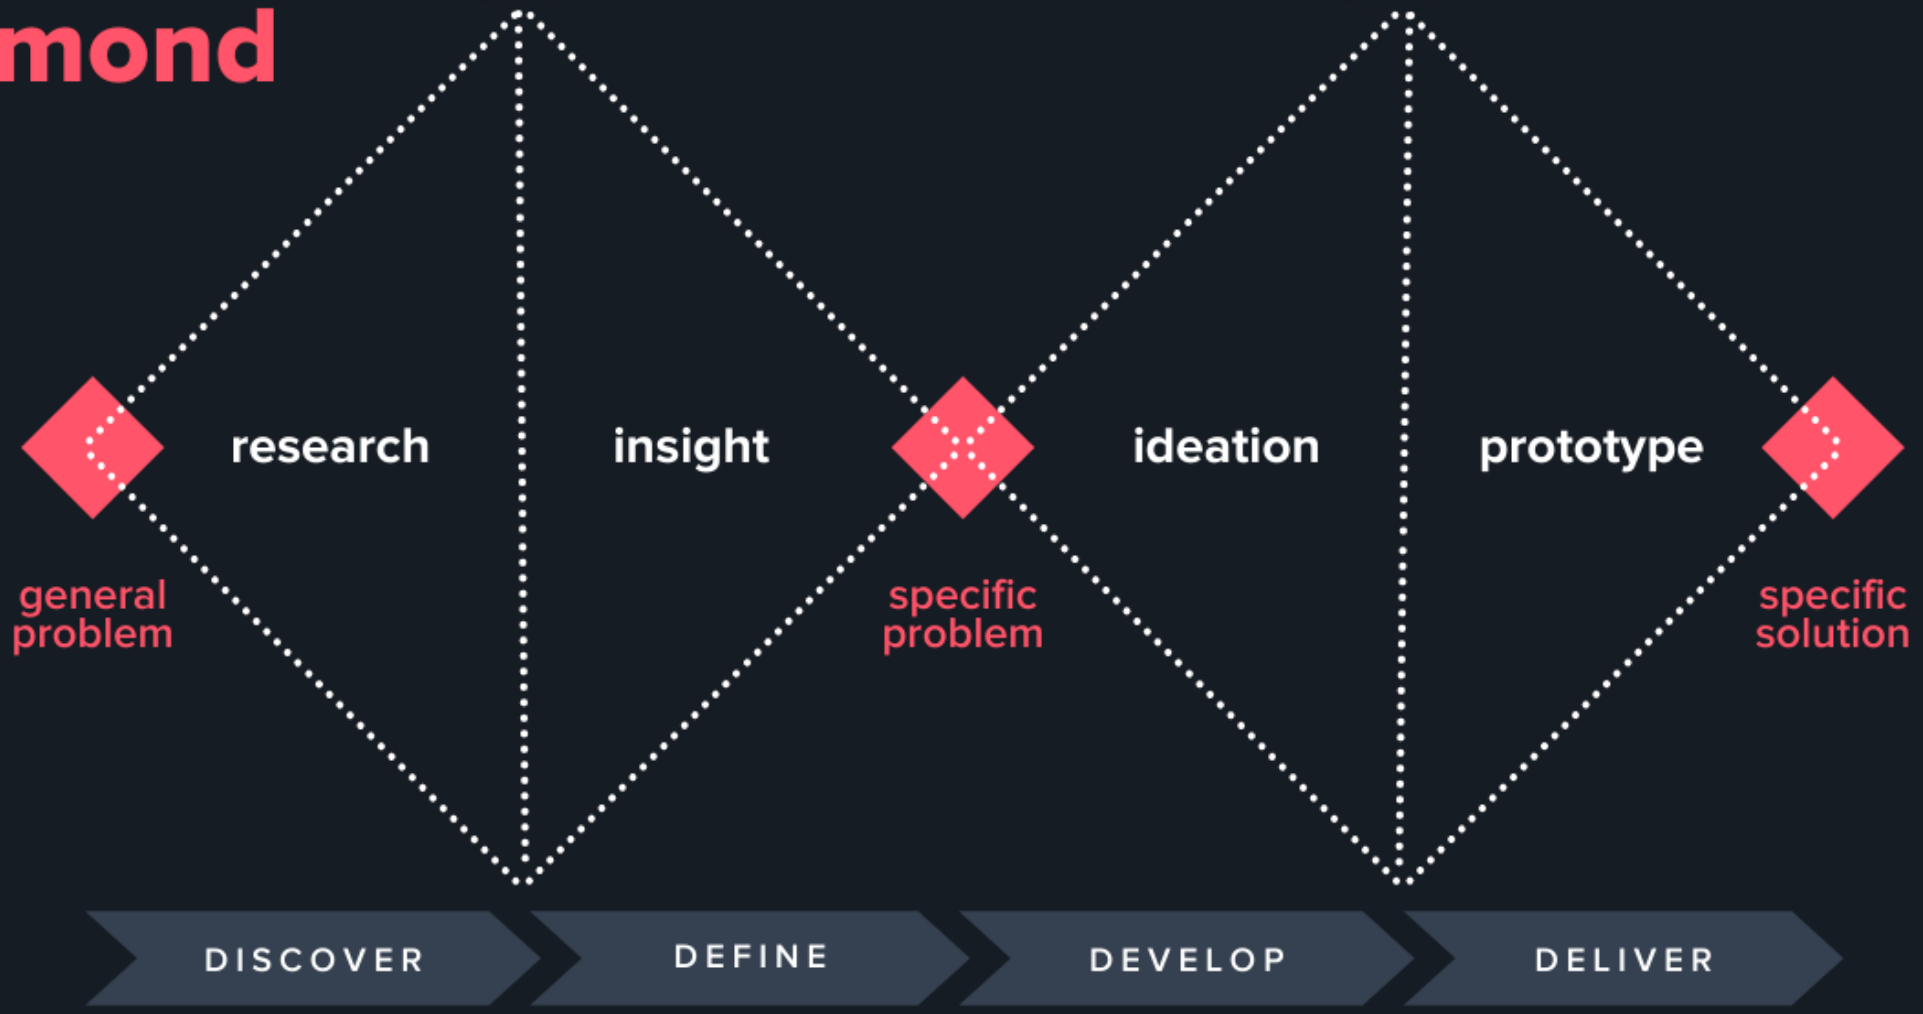

- Mundtlig eksamen med udgangspunkt i projekt
- Gruppeeksamen
- Delkarakter
- Dato: 21-22 oktober

Design er en iterativ proces

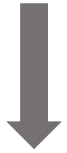

Double Diamond

aela

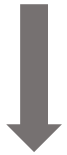

Perspektivet har ændret sig

Technology-centered design

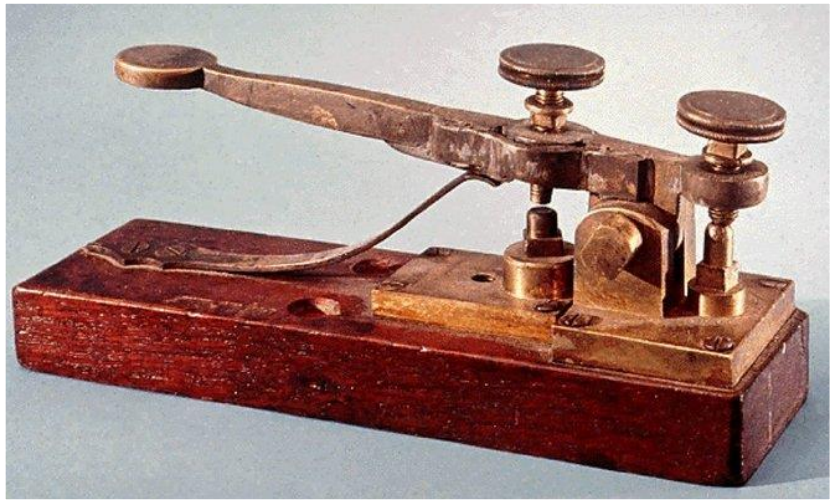

Human-centered design

Humanity-centered design

En kort historie om interaktionsdesign

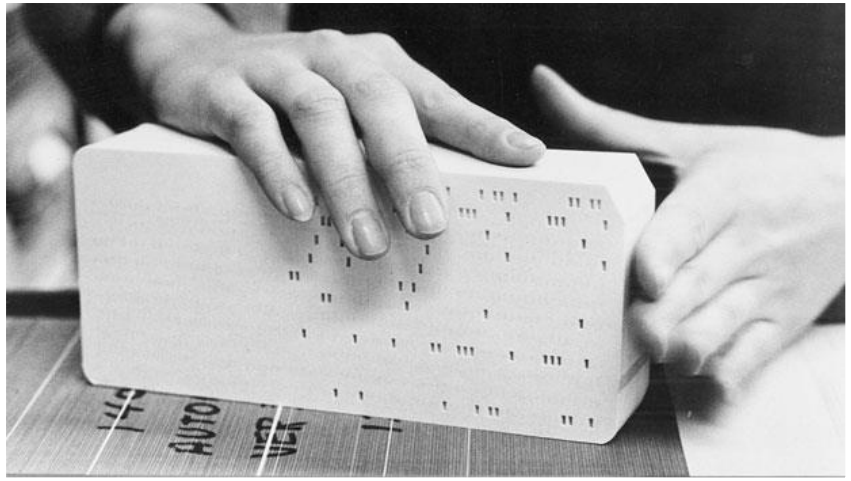

1830-1940: Telegrafen

1940-1960: Hulkort

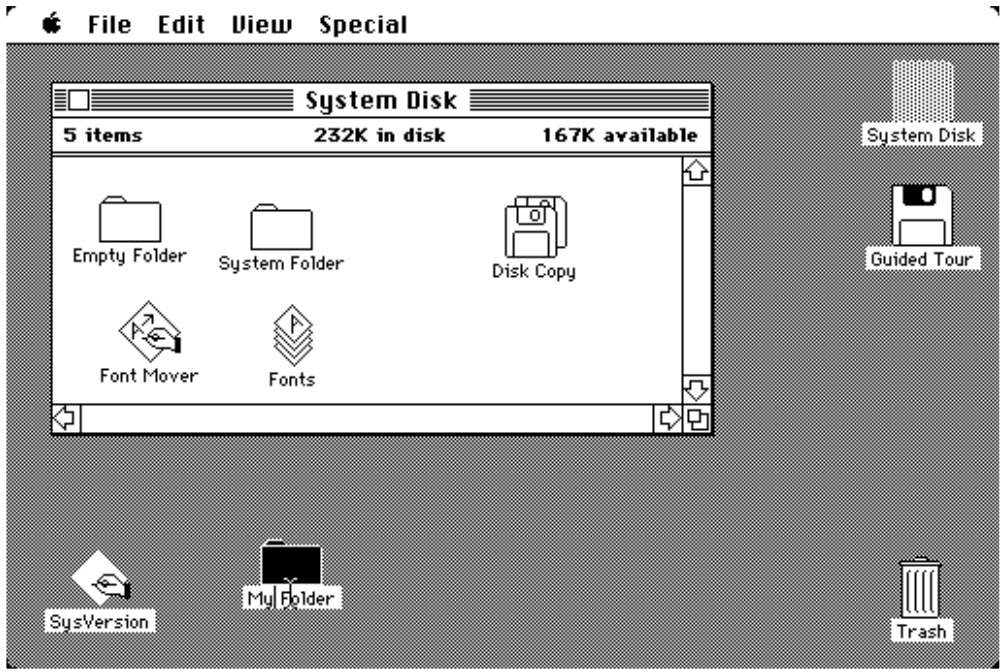

1960-1970: Controls

1980s: PC og GUI

1990s: Internet

2000-2020: IoT og wearables

2020-nu: AI

Øvelse – grupper

1. Skim UX best practices på https://lawsofux.com/
2. Diskuter disse websites i gruppen:
   - https://www.zara.com/dk/
   - https://arngren.net/
   - https://ashendchildrensfarm.co.uk/
3. Hvilke ”UX laws” kunne designeren med fordel have været mere bevidst om?

Antagelser *er roden til alle fuckups!*

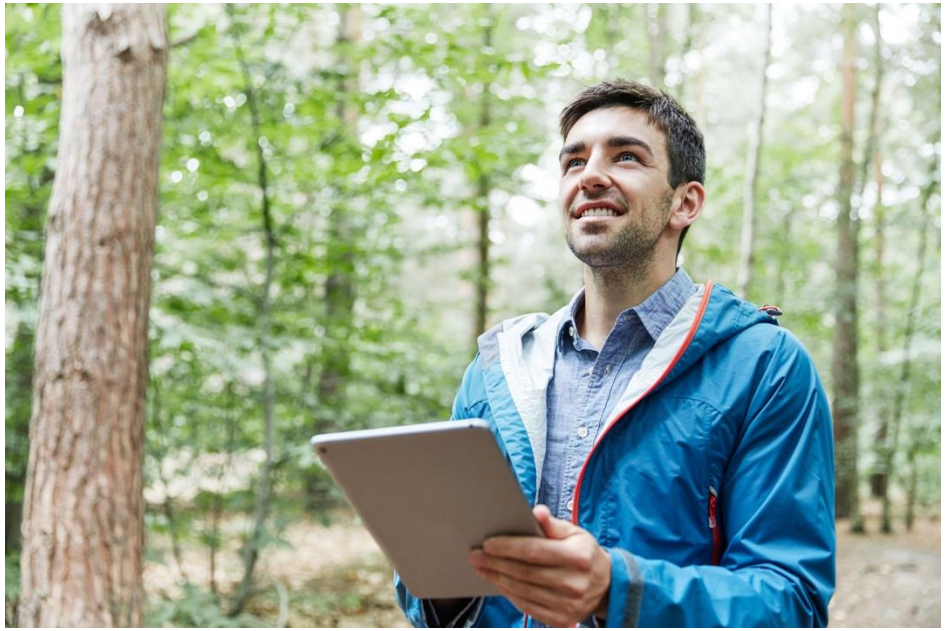

If I had 20 days to solve a problem, I would take 19 days to define it.

– Albert Einstein

UX research

Primær data

Data, du selv indsamler

Sekundær data

Data, der allerede er indsamlet

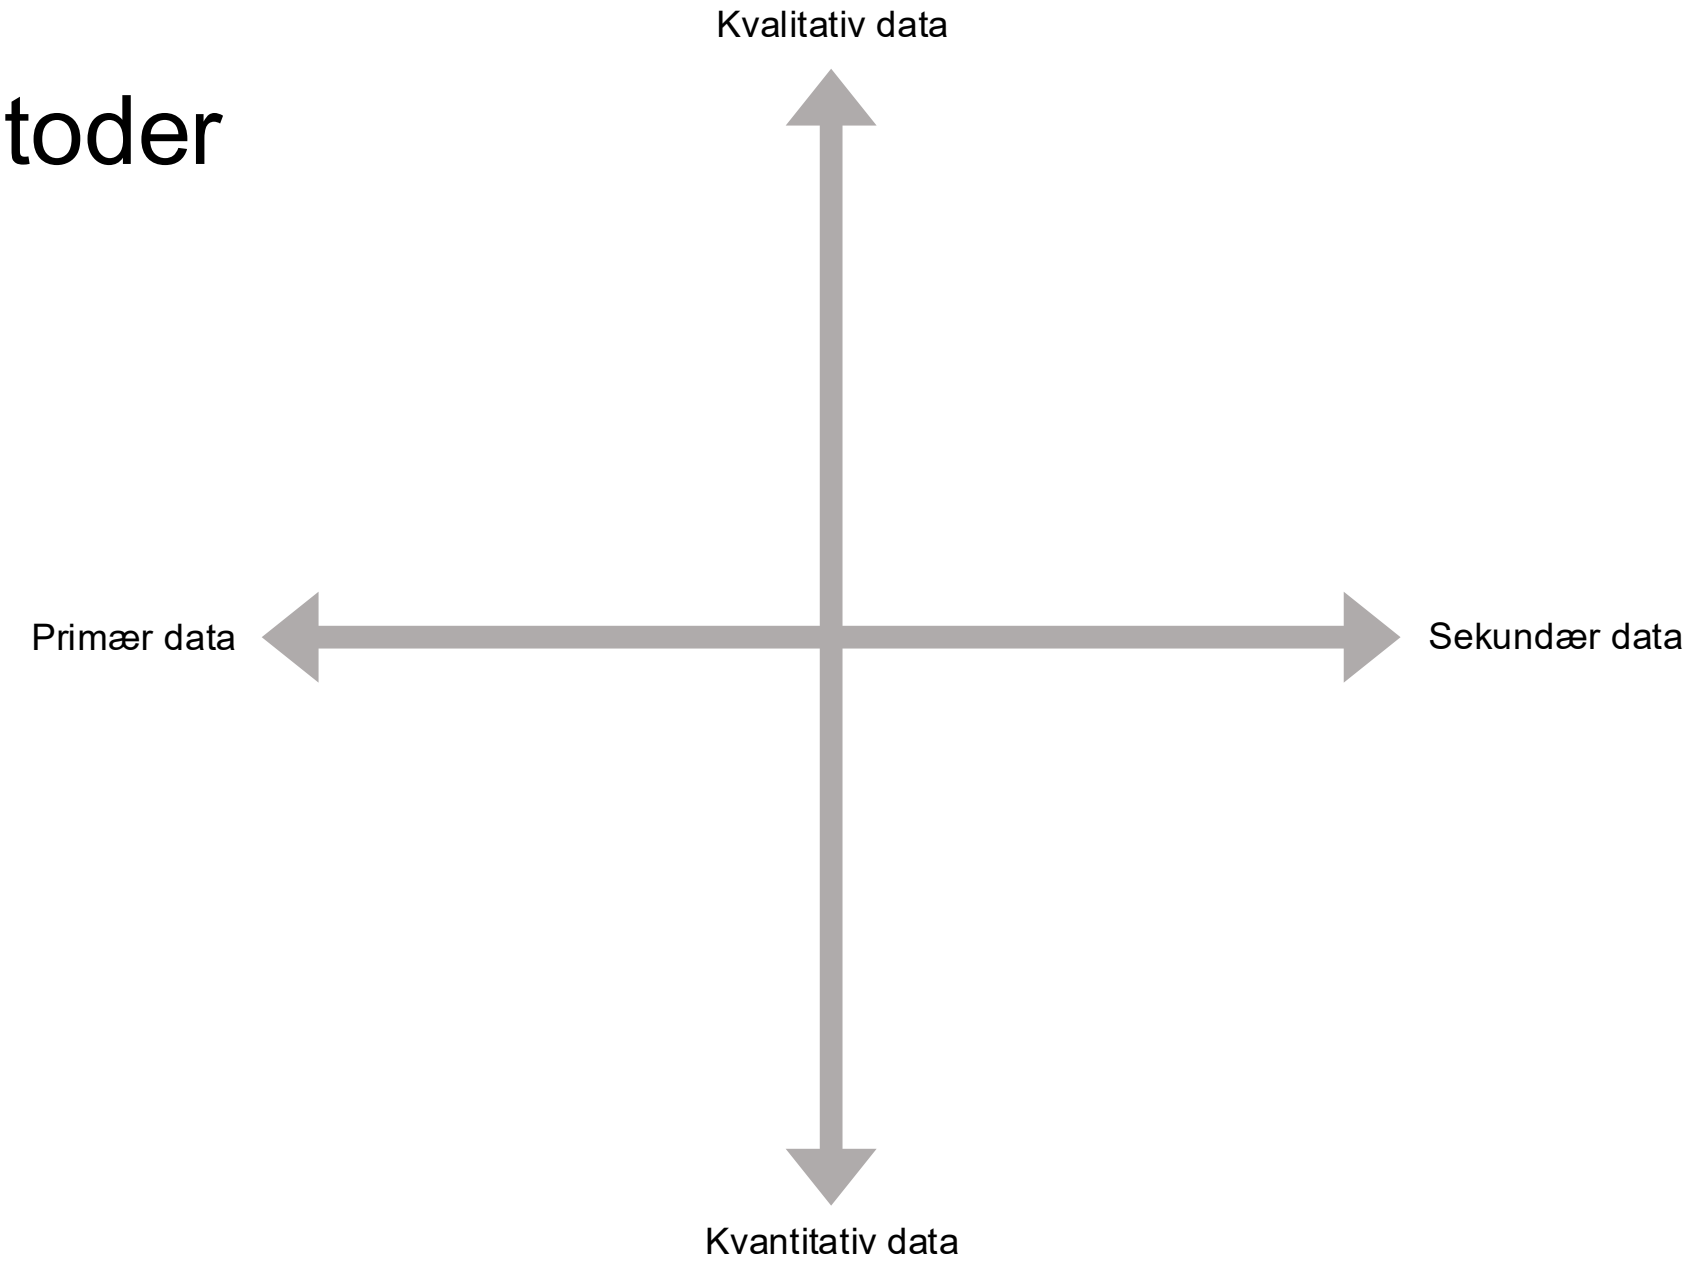

Kvantitativ research

- Dataindsamling fra en stor gruppe
- Giver indsigt i **generelle tendenser** baseret på data

Kvalitativ research

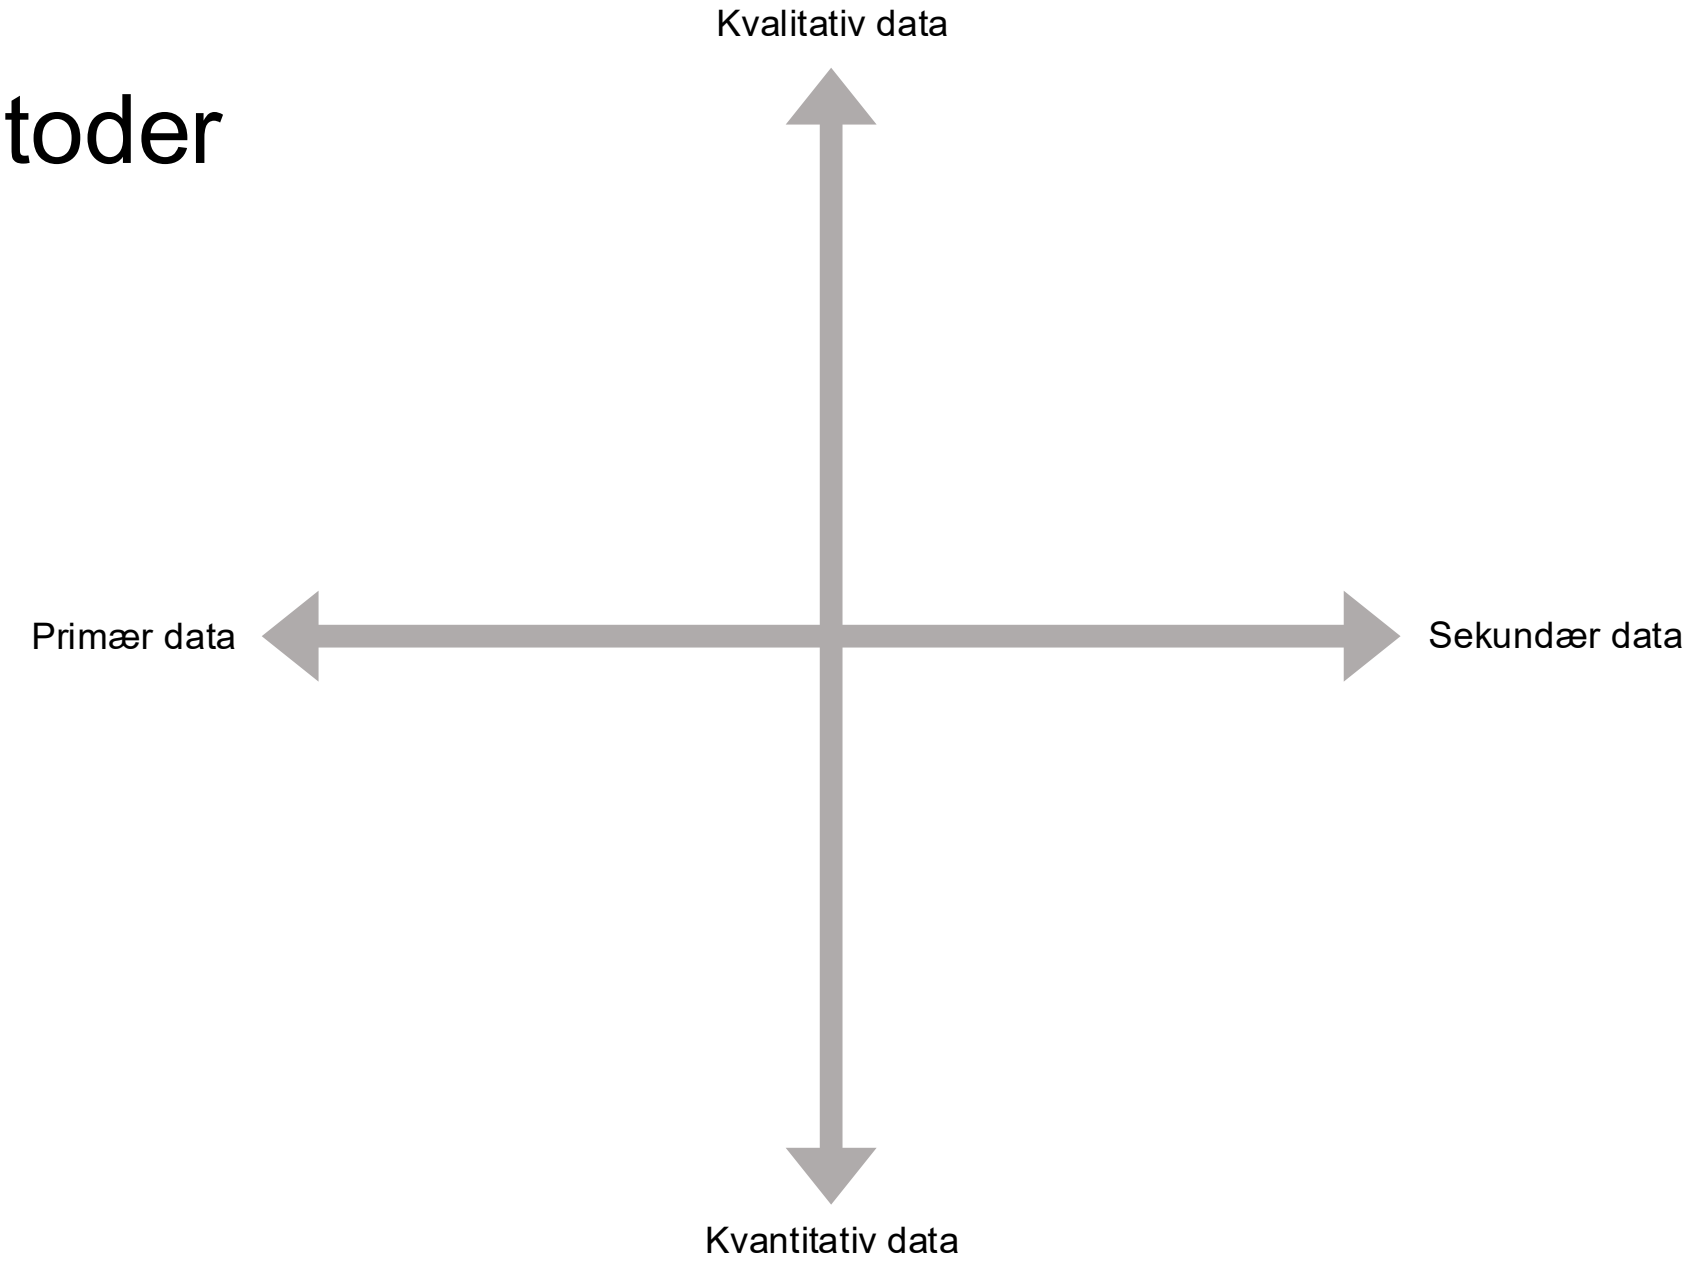

- Dataindsamling fra en lille gruppe
- Giver indsigt i **adfærd** og **holdninger** hos enkeltpersoner

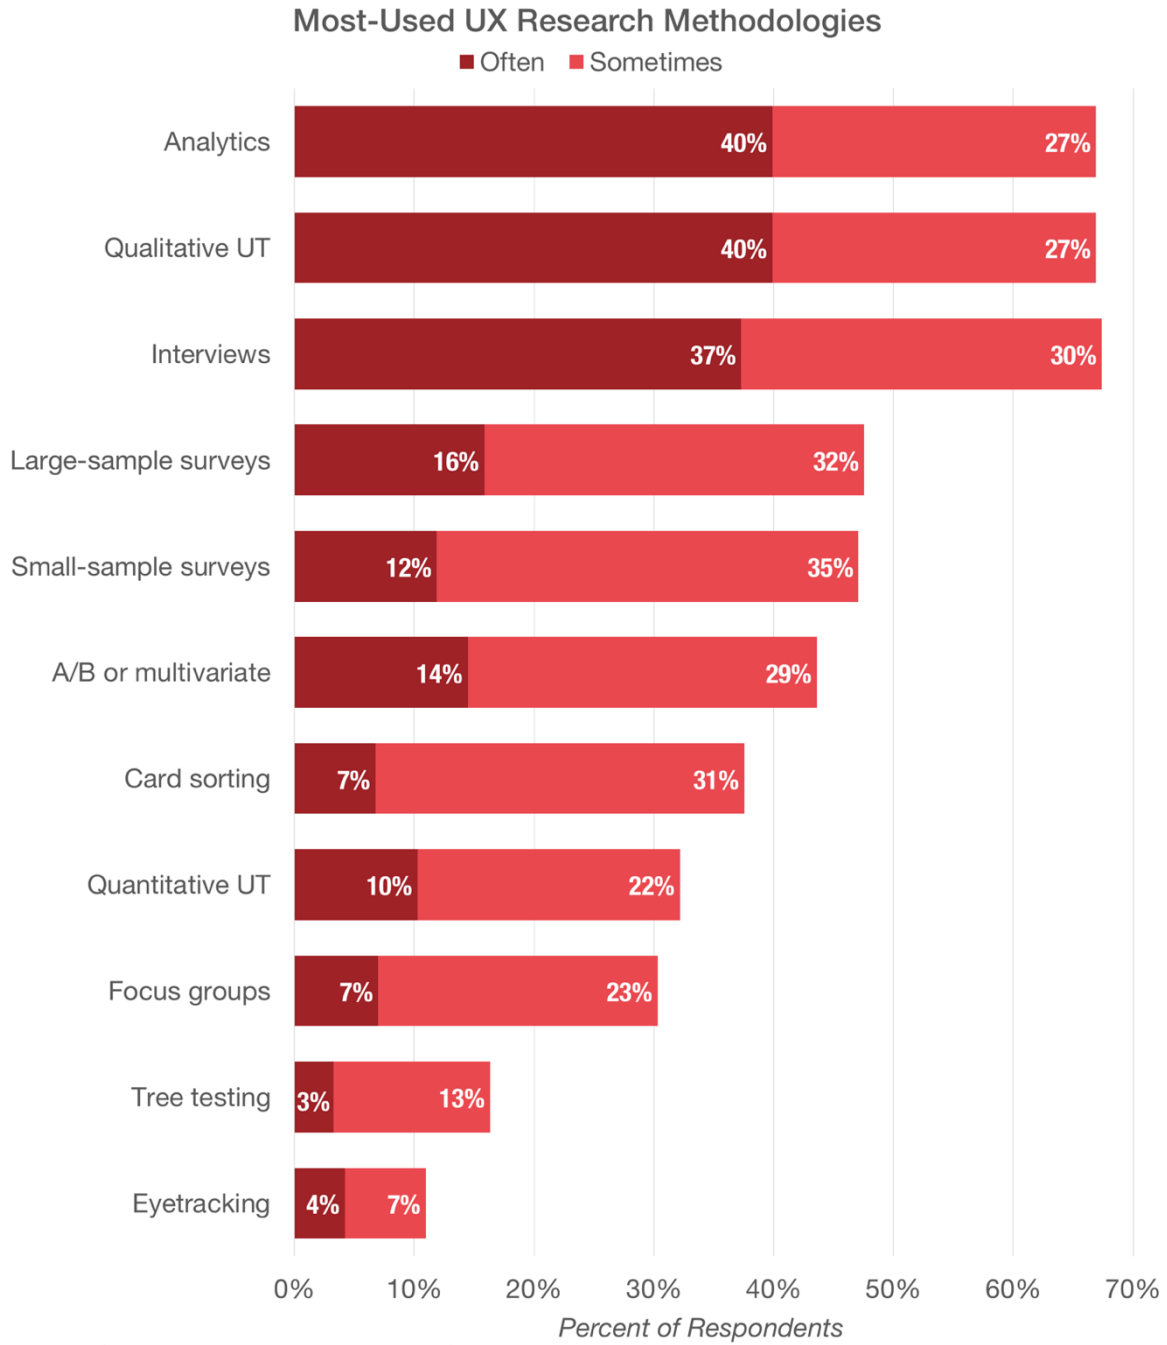

Researchmetoder

Researchmetoder

- Fokusgrupper
- Tænke højt-test
- Statistikanalyse
- Spørgeskemaer
- A/B-test
- Observation
- Kortsortering
- Interviews

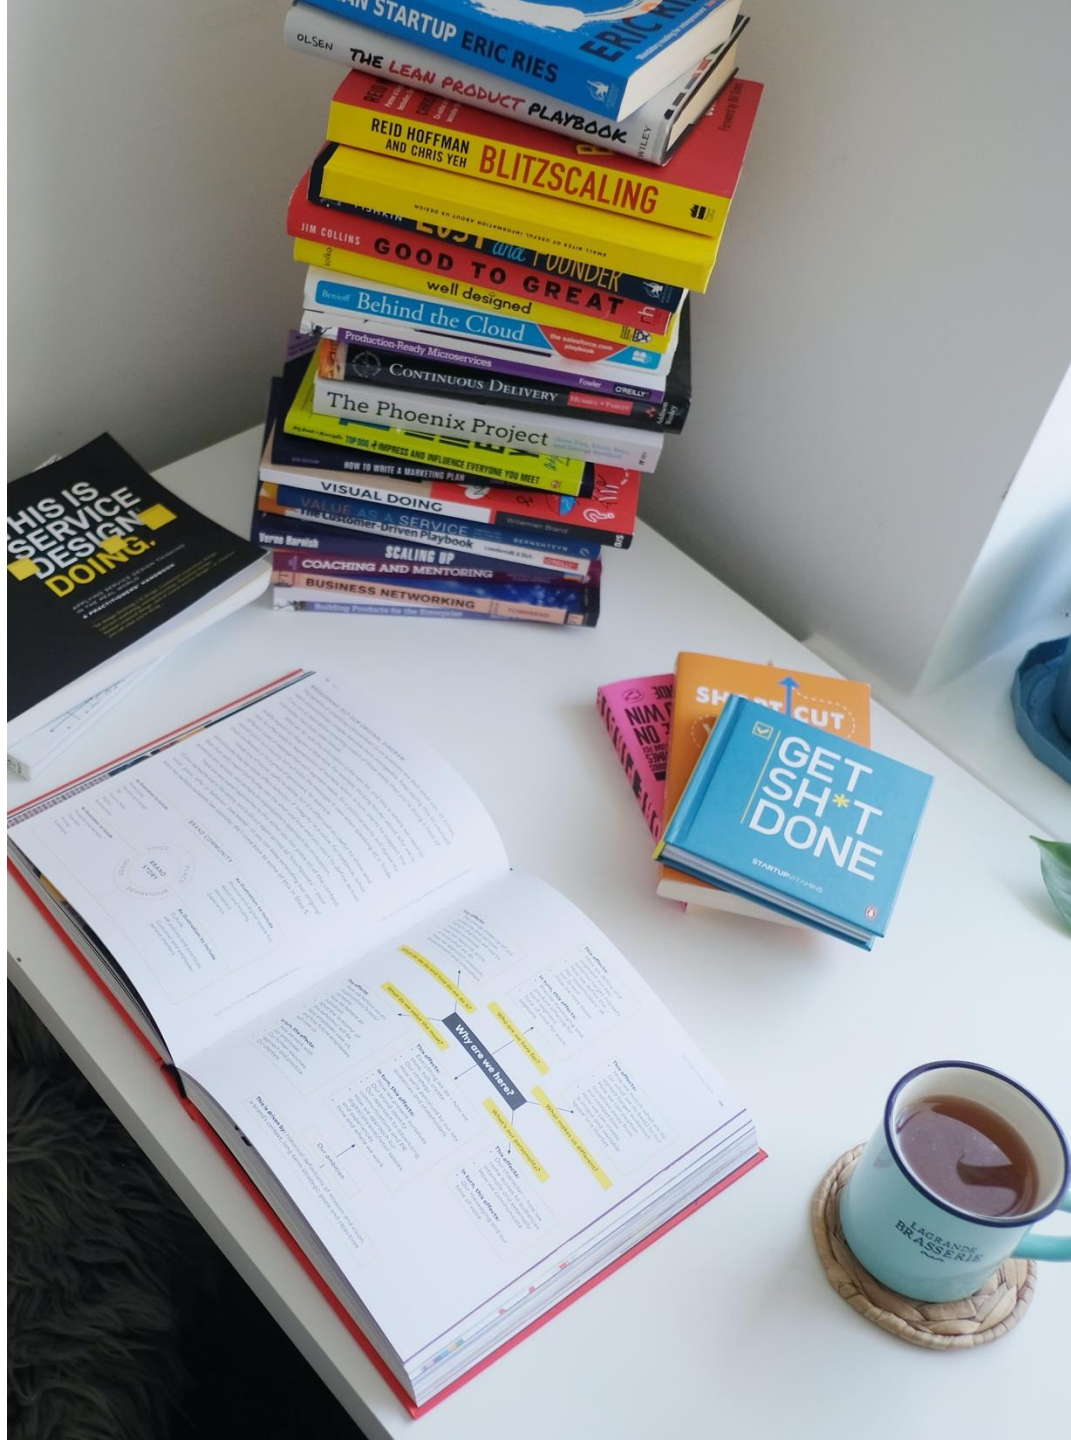

Source: https://www.nngroup.com/articles/quant-research-practice/

Desk research

Research, der baserer sig på materiale, der allerede er publiceret.

Gode steder at starte:

- Danmarks statistik
- Bøger/artikler
- Google Analytics
- Meta
- Interesseorganisationer
- Web-søgninger / AI
- Conzoom

Feltstudie / field study

Giver pålidelig indsigt, da folk befinder sig i deres naturlige miljø

Klassiske metoder i feltstudier

- Observation
- Interviews

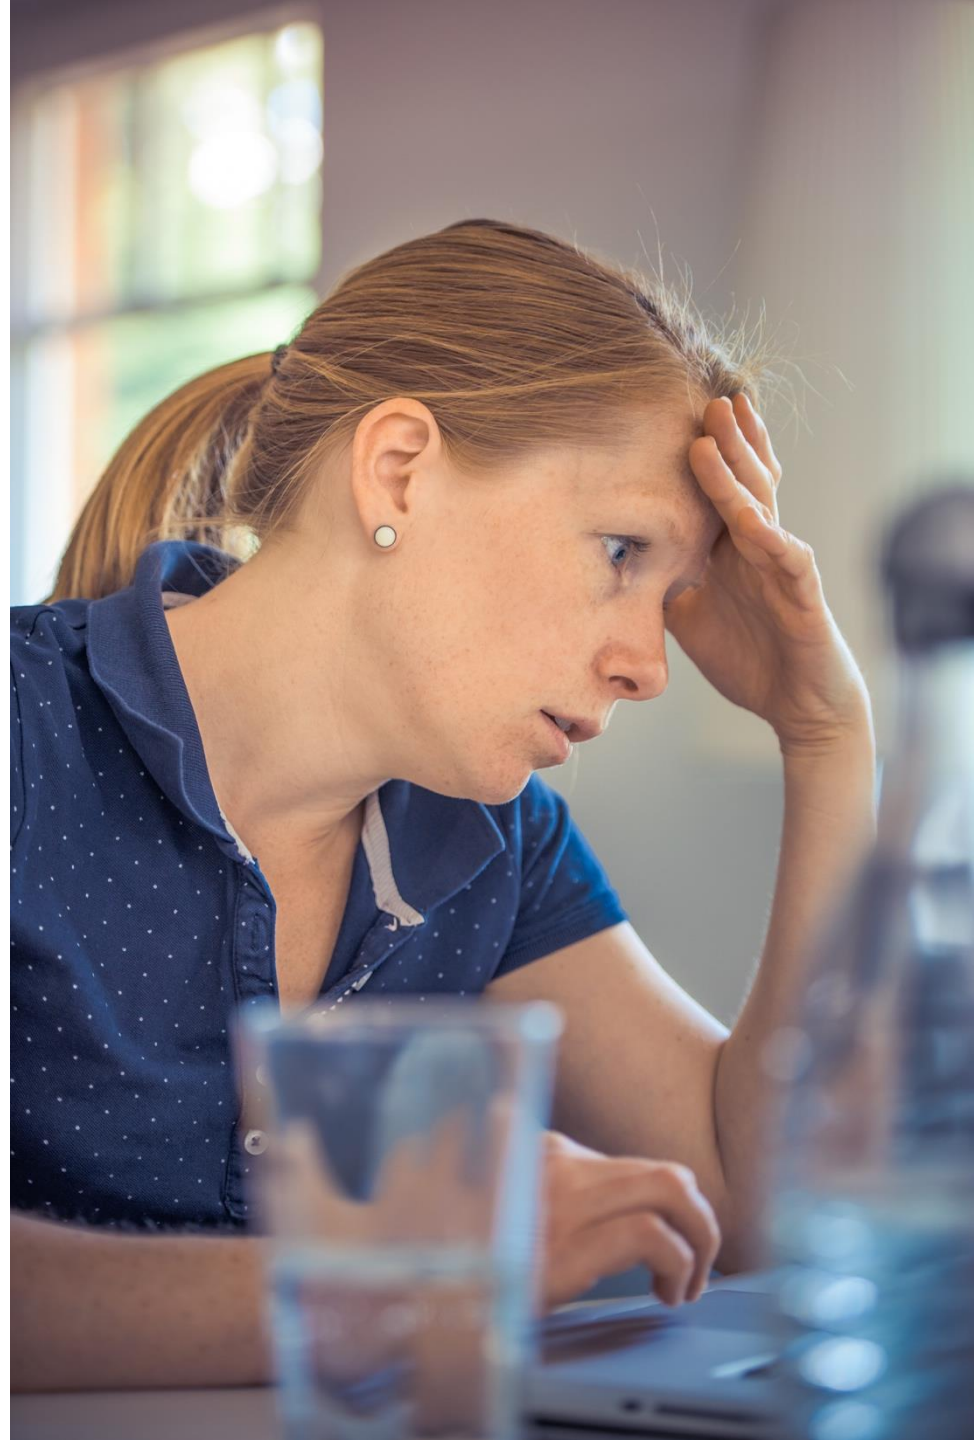

Observationer

Ved at observere brugerne prøver vi at blive klogere på:

- Hvilke mål prøver brugerne at få opfyldt?
- Hvordan bærer de sig ad?
- Hvilke dele af processen kan de lide/ikke lide?
- Hvad er besværligt for dem undervejs?
- Hvilke ”workarounds” finder de fundet på?
- Hvordan har de det imens?

Kvalitative interviews – 3 typer

- Struktureret
  - Specifikke spørgsmål
  - Alle får samme spørgsmål i bestemt rækkefølge
  - Minder om spørgeskema
- Semi-struktureret
  - Planlagt spørgeramme (spørgsmål)
  - Vilkårlig rækkefølge af spørgsmål
  - Der kan stilles uddybende spørgsmål
- Ustruktureret
  - Ingen interviewguide/spørgsmål
  - Uformelt setup
  - Formel interviewsituation

Interviews

Vi vil gerne forstå tre ting

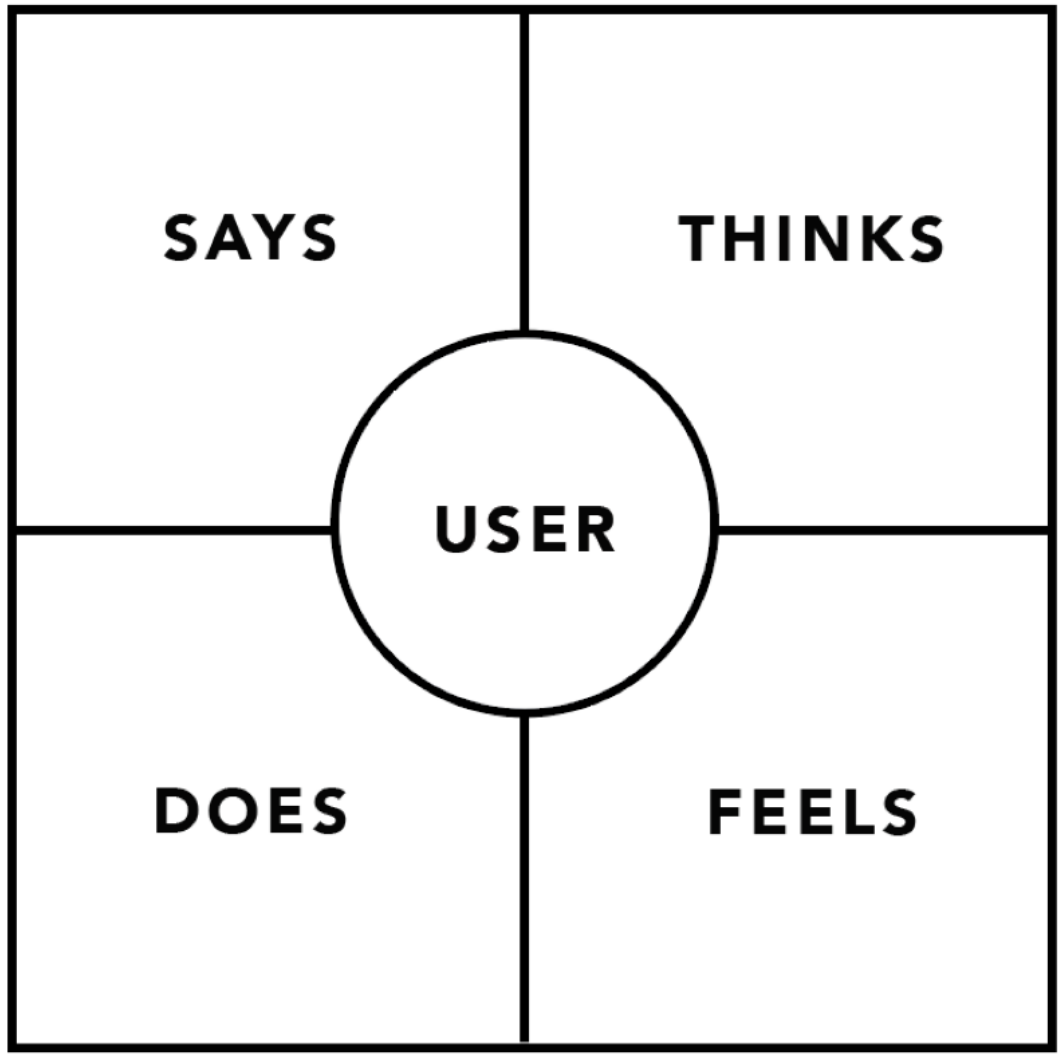

- **Motivation:** Hvad ville brugeren gerne opnå og hvorfor?
- **Aktiviteter:** Hvordan gjorde de?
- **Problemer:** Hvilke pain points var der i processen med det nuværende design?

Selve interviewet

- Forklar formålet med interviewet
- Stil **åbne** spørgsmål
- Undgå **ledende** spørgsmål
- Pas på ”The Query Effect” (folk har en mening om alt, de bliver spurgt om!)
- Stil spørgsmål, der lægger op til **beskrivelser**, ikke **holdninger**

EMPATHY MAP

Personas

Personas er fiktive karakterer, der er skabt til at repræsentere de forskellige brugertyper, der kunne tænkes at anvende et website, brand eller produkt på den samme måde.

Fordele ved personas:

- Hjælper team-medlemmer med at opnå en **ensartet forståelse** af målgruppen
- Designprocessen **kan styres** af, hvor godt produktet opfylder behovene hos den enkelte persona
- **Skaber empati** ved at give et menneskeligt "ansigt" på målgruppen

Persona-information

- Baggrundsinformation
- Navn, alder, lokalitet
- Billede
- Motivation
- Mål
- Frustrationer
- Præferencer (brands, teknologi mv.)
- Øvrig relevant info…

Information bør baseres på research, ikke antagelser!

Stu

Age 32

Occupation Software Developer

Location Cedar Falls, IA

Archetype Thanker

"I want to recognize my coworkers in the moment"

Motivations

- Promote Helping Others
- Feel Appreciated
- Recognize Teammates

Goals

- Show appreciation to coworkers
- Give thanks right after good deed has been done

Frustrations

- Having to wait days to show appreciation
- Team member might be out of office and might not hear his thankfulness

Stu, 32, is a busy developer who works on multiple projects. He has a lot on his plate and would prefer to provide recognition in the moment and then move on to the next thing.

Rachel

Demographic

Age	23
Education	B.tech
Family	Single
Job	Visual designer
Location	Bengaluru,India

Personality

Extrovert	Introvert
Sensing	Intutive
Thinker	Feeling
Judging	Perceiving

Motivation

- Promotion
- Teamwork
- Impact
- Creative

Goals

- Productivity, Focus and to create great user friendly designs for her clients.
- Reduce energy and effort put into ordering process.
- Focus more on her work.
- Avoid morning hustle at cafe.

Frustrations

- Ordering and payment process is frustratingly time-consuming.
- Unbearably loud noise in cafes in morning hours.
- Hate when reach office late.

About

Rachel works as a visual designer and has a pretty busy schedule . She loves working with her team and is often required to takeaway order from cafes for her colleagues in morning rush hours, But getting her order and paying for it at shops is most frustrating and time taking thing to do.

Anne

20, student

Moscow, Russia

"I want to keep fit and look great. That's why I go to the gym.

About

Anne studies chemistry. She's trying to leave healthy life. Loves hiking and traveling. Anne never leaves home without her smartphone as she wants to stay in touch with her friends. Doesn't have bad habits. Has a corgi named Rex.

Goals

- Keep fit
- Live a healthy life
- Visit all countries in the world
- Make friends
- Become a scientist

Skills

- Exercises
- Nutrition
- Internet
- Apps
- Sociability

Favorite Apps

Caroline

43, nurse

Amsterdam, The Netherlands

"My friends say that I'm very attractive. I've lost some shape after I gave birth to our daughter. I want to look as I did before.

About

Caroline is a nurse. She loves her husband and newborn daughter Helen. Helping people is her passion and profession. She's also fond of reading and self-developing in different ways. Caroline spends her weekends in the garden growing flowers and vegetables. She has two cats Pete and Fluffy.

Goals

- Look attractive
- Lose weight
- Be a good mom
- Open an own clinic

Skills

- Exercises
- Nutrition
- Internet
- Apps
- Sociability

Favorite Apps

Peter

32, musician

Stockholm, Sweden

"I want to look like a true rock star. I think I need to become stronger, gain some mass and grow muscles as I'm a bit thin now.

About

Peter Andersson quit his job a year ago, after working for 10 years in IT. He wants to pursue a career of rock musician. Peter is extremely active. He swims twice a week and goes running every morning. He is also an avid fisherman. Peter thinks that growing some muscles would be good for his scenic image.

Goals

- Become stronger
- Gain some mass and muscles
- Become a rock star
- Give up smoking

Skills

- Exercises
- Nutrition
- Internet
- Apps
- Sociability
